

GFX Product CAD data availability

<https://www.hepcotion.com/blog/latest-news/gfx-product-cad-data-availability/>

We are pleased to announce that CAD data for the GFX 1TL product range is now freely available from our website (www.hepcotion.com).

The data is accessible through our portal providers Traceparts and Cadenas in commonly used 2D & 3D CAD software formats. Users need to simply click on 'CAD downloads' at the top of the website.

Access to GFX CAD data will support technical teams, customer engineers and designers to quickly and efficiently integrate the most commonly used GFX 1TL hardware into planning and proposal models. HepcoMotion's technical sales team are available to support customers looking for special shapes and large system models (please contact [\[email protected\]](#)). The range of components available to download will continue to increase over the forthcoming months.
