---

**The high production demands within this sector make low maintenance an important requirement. From machines for the production of capsules to tablet pressing and coating equipment, there is no margin for error when specifying a linear motion product.**

An ability to work at extended periods and a proven reliability without maintenance is a benefit of Hepco's V based linear components. With a wide range of linear and circular solutions all in stainless steel if needed, you are sure to find a solution to improve your machine efficiency.
